About me:

My name is Nicholas Alvarez and I am full-time graphic design student at Queens College. I specialize in illustration and commercial design. Although, I am fairly new to the design industry I hope to improve my skills in design and become a well-known designer throughout New York City. They say if you love what you do it won't feel like work, if that were true then i haven't worked in years.

Nine-Eleven

This piece was done on Adobe Photoshop. Using pictures of neon letters, I was able to construct a message, which resembles the note of a conspiracy theorist
